

Website Access Guide Using Proton VPN

Our website may be inaccessible on certain internet networks because it may be temporarily blocked or flagged by the service provider. To ensure uninterrupted access, please install **Proton VPN**, connect before visiting our website, and keep the VPN connected while browsing.

For Mobile (Android & iPhone)

Step 1: Download Proton VPN

Android: Open Google Play Store, search for **Proton VPN**, and tap **Install**.

iPhone: Open the App Store, search for **Proton VPN**, and tap **Get**.

Step 2: Open the App

Launch the Proton VPN app after installation.

Step 3: Create an Account or Sign In

Depending on your app version, you may be able to continue as a guest. If prompted, create a free Proton account or sign in with your existing account.

Step 4: Connect to Proton VPN

Tap **Quick Connect**. If prompted, allow VPN permissions. Wait until the status changes to **Connected** with a green indicator.

Step 5: Visit the Website

Leave Proton VPN connected, open your preferred browser, and access our website.

For Windows PC

Step 1: Download

Visit <https://protonvpn.com/download> and download the Windows 11/10 (64-bit) version.

Step 2: Install

Run the installer and complete the setup by selecting **Next** → **Install** → **Finish**.

Step 3: Create an Account & Sign In

If required, create a free account at <https://account.proton.me/signup> and sign in to the application.

Step 4: Connect

Click **Quick Connect** and wait until the status displays **Connected** with a green shield icon.

Step 5: Access the Website

Keep Proton VPN connected while browsing and visit our website.

For macOS

Step 1: Download

Download Proton VPN for macOS from <https://protonvpn.com/download>.

Step 2: Install

Open the downloaded file and drag Proton VPN into the **Applications** folder.

Step 3: Sign In

Launch the application and sign in or create a free account.

Step 4: Connect

Click **Quick Connect**, approve VPN permissions if requested, and wait until the status shows **Connected**.

Step 5: Access the Website

Open Safari, Chrome, or your preferred browser and visit our website.

Quick Access Instructions

Unable to access our website on Airtel?

1. Install Proton VPN from the App Store, Google Play Store, or <https://protonvpn.com/download>.
2. Create a free account (if required) and sign in.
3. Click or tap **Quick Connect**.
4. Wait until the status changes to **Connected**.
5. Open your browser and visit our website.

Note: We are actively working with the relevant service providers to resolve this issue permanently.
